MT-O-10V

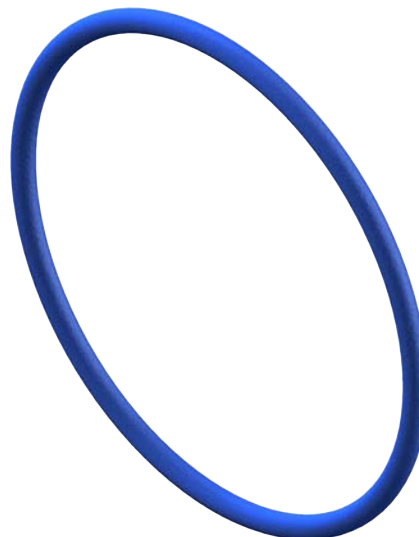

Oversized O-Ring

Prepackaged Quantity: 25 Units

Sonnax now offers an oversized o-ring **MT-O-10V**, to be used in Mitsubishi F4/R4A51, F5/R5A51 torque converters with worn piston bores. Resize the bore to 2.298" \pm .001" (58.37mm \pm 0.025mm). To avoid the risk of the o-ring coming out of the groove, be sure not to exceed this recommended bore specification.
