

Features & Benefits:

- New Integrated Circuit Board
- Improved Design Over OEM
- No-hassle Direct Replacement
- Re-conditioned Solenoids
100% Tested
- New Viton O-Rings

Part No. 5R55W/S

56954L

1 Reconditioned Solenoid Block '04-Up

Note: Patent Pending

Part No. 5R55W/S

56954K

1 Reconditioned Solenoid Block '02-'03

Note: Patent Pending

Part No. 5R55N Only

56954N

1 Reconditioned Solenoid Block '99-Up

Note: Patent Pending

PART SUMMARY

Rebuilders now have a no-hassle option of replacing worn or contaminated 5R55N/W/S Solenoid blocks with Sonnax Part Numbers **56954L**, **56954K** and **56954N** re-conditioned Solenoid blocks. The improved design of these reconditioned Solenoid blocks features a new integrated, printed circuit board in place of the OEM circuit assembly and eliminates fatigue failures common to the ribbon cable inside the OEM circuit assembly. In addition, the integrated circuit board's soldered connections provide a more secure interconnection than the OEM barbed, press-fit connection for greater durability. All re-conditioned Solenoids are 100% tested.

Did You Know?

We will buy your old 5R55N/W/S
and 45RFE/545RFE, 68RFE Solenoid cores!
