

GM 200-4R / 200C DIRECT CLUTCH PISTON APPLY RING

H I G H P E R F O R M A N C E T R A N S M I S S I O N P A R T S

FEATURES & BENEFITS

- Evenly distributes apply force to clutch pack
- Improves direct clutch durability in 200-4R & 200C transmissions
- Replaces OEM stamped steel direct clutch apply ring
- Requires no modifications to the direct clutch piston or drum assembly
- Manufactured from 7075-T6 aluminum

Part Nos.

65772J-01

*Direct Clutch Piston
Apply Ring*

PART SUMMARY:

Sonnax now offers a direct clutch piston apply ring for GM 200-4R and select GM 200C applications. The ring replaces the stamped steel OEM piston apply ring. The robust design of the Sonnax ring **65772J-01** provides much greater contact with the clutch pack. The ring is made from 7075-T6 aluminum and requires no modifications to the direct clutch piston or drum assembly.
