28801-S09K

Powerglide oil filter to Powerglide valve body (see Figure 1)

1. Remove and discard the existing filter, filter gasket and filter mounting hardware.
2. Thoroughly clean the filter mounting surface on the valve body by removing any dirt, sludge or remaining gasket material.
3. Mount the oil filter extension (Item 1). Place a filter gasket (Item 2) between the extension and the filter mounting surface of the valve body. Fasten the extension using the 1/4"-20 x 3/4" socket head cap screws (Item 3) and lock washers (Item 4).
4. Mount a new oil filter (Item 6) to the extension placing a filter gasket between the filter and the extension. Fasten the filter using the 1/4"-20 x 3/8" button head cap screws (Item 5).

Note: The new filter is not included in the kit.

28801-S10K

Chrysler TorqueFlite oil filter to Powerglide valve body (see Figure 2)

1. Remove and discard the existing filter, filter gasket and filter mounting hardware.
2. Thoroughly clean the filter mounting surface on the valve body by removing any dirt, sludge or remaining gasket material.
3. Mount the oil filter extension (Item 1). Place the gasket (Item 2) between the extension and the filter mounting surface of the valve body. Fasten the extension using the 1/4"-20 x 5/8" socket head cap screws (Item 3) and lock washers (Item 4).
4. Mount a Chrysler oil filter (Item 6) to the extension using the 10-24 x 1/2" button head cap screws (Item 5).

Note: The new filter is not included in the kit.

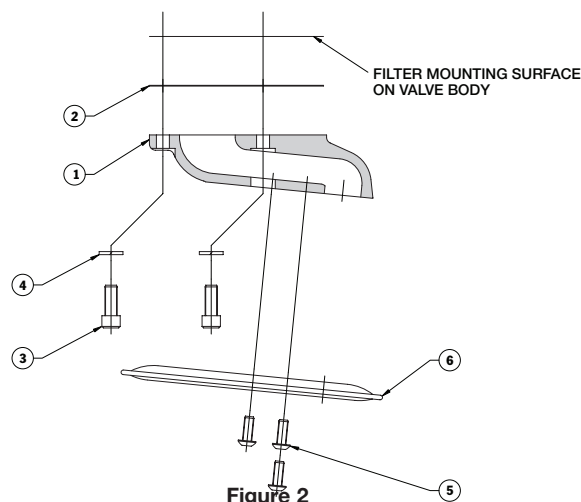

Figure 2

28801-S11K

Chrysler TorqueFlite oil filter to aluminum Hipster valve body (see Figure 3)

1. Remove and discard the existing filter, filter gasket and filter mounting hardware.
2. Thoroughly clean the filter mounting surface on the valve body by removing any dirt, sludge or remaining gasket material.
3. Mount the oil filter extension (Item 1). Place the gasket (Item 2) between the extension and the filter mounting surface of the valve body. Fasten the extension using the 10-24 x 1-1/4" socket head cap screws (Item 3) and lock washers (Item 4).
4. Mount a Chrysler oil filter (Item 6) to the extension using the 10-24 x 1/2" button head cap screws (Item 5).

Note: The new filter is not included in the kit.
