#### Part Number

**T350-125-72**

#### Aluminum Driveshaft Tube

## SPECIFICATIONS

Sonnax now offers **T350-125-72**, a high-quality aluminum tube for 3-1/2" diameter aluminum driveshaft applications. This 6061-T6 aluminum tube is produced to tighter size, roundness and straightness tolerances than standard aluminum tubing in order to meet the functional requirements and demands of aluminum driveshaft builders.
