

## C1 Clutch Control Valve & Seal Kit

### 37000-05K

1 C1 Clutch Control Valve  
1 Teflon® Seal

**Note:** Fits pump stators manufactured up to February 2004. Does not fit No. 29541135 or later pump stators.

### INSTALLATION

1. Remove OEM clip, spring and valve.
2. Discard OEM valve.
3. Deburr the leading edges on both the large diameter lands of the C1 valve bore.
4. Lubricate bore with ATF.
5. Fill seal groove on valve with assembly gel, then install Teflon® seal on C1 valve.
6. Install new C1 clutch control valve by slowly rotating the valve while sliding it into the bore.
7. Install OEM spring and end clip.
