Sonnax Part Summary

Replacing the assembly can be a time-consuming job once the TV cable breaks. The Sonnax universal TV cable 77872-02K allows builders to make repairs quickly while leaving the cable housing in place, and fits a large number of different applications.

Features & Benefits

- Universal TV cable repair kit includes a TV cable assembly, linkage clip, and cable adjuster with set screws.
- Kit allows for the replacement of the TV cable while reusing the original housing. This means that one part will cover a wide range of applications.
- Kit also allows for replacement of the cable while leaving the cable housing on the vehicle (requires crimping tool, Klein tool 1006 electrical terminal crimper, which is available at most hardware stores).
