

FD-MD-2

MECHANICAL DIODE

H I G H P E R F O R M A N C E C O N V E R T E R P A R T S

APPLICATIONS:

- Ford 10" Falcon stator

DETAILS:

- 3.356" O.D.
- .750" shoulder height
- 32-tooth Ford spline
- Made from hardened S7 tool steel

Part No.

FD-MD-2

Mechanical Diode

PART SUMMARY

The Sonnax Mechanical Diode one-way clutch offers much greater strength than existing roller clutches and dog-leg style sprags. The mechanical diode is ideal for use with torque converter stators in high-horsepower drag racing vehicles. Sonnax offers the **FD-MD-2** for applications with the Ford 10" Falcon stator. Made from hardened S7 tool steel, the **FD-MD-2** features the Ford 32-tooth spline and comes with a one-year warranty from date of purchase. This mechanical diode is not designed or recommended for street use.

ASSOCIATED PARTS:

- **FDGM-MD-1**, for use with the Ford 10" Falcon Stator / GM 27-tooth spline
