

## **CH-MD-1**

### **MECHANICAL DIODE**

H I G H P E R F O R M A N C E C O N V E R T E R P A R T S

#### **APPLICATIONS:**

- Chrysler TF6 / 904

#### **DETAILS:**

- Small 27-tooth spline
- Made from hardened S7 tool steel
- 3.25" O.D.
- .75" effective height
- .89" overall height

**Part No.**

**CH-MD-1**

*Mechanical Diode*

#### **PART SUMMARY**

The Sonnax Mechanical Diode one-way clutch offers much greater strength than existing roller clutches and dog-leg style sprags. The mechanical diode is ideal for use with torque converter stators in high-horsepower drag racing vehicles. Sonnax offers the **CH-MD-1** for Chrysler TF6/904 applications using the Opel 3.25" I.D. stator. Made from hardened S7 tool steel, the **CH-MD-1** features the small 27-tooth spline and comes with a one-year warranty from date of purchase. This mechanical diode is not designed or recommended for street use.
