Chrysler 45RFE/545RFE

Sonnax has re-designed **CH-WP2-OE**, the plastic thrust washer used in early 45RFE applications, so it will also fit later 45RFE/545RFE torque converters. In addition, the O-ring groove location has been changed for better performance. The upgraded **CH-WP2-OE** replaces the temporary part number **CH-WP2-OET**.

Features & Benefits

- Modified for universal applications
- Improved O-ring groove location
- 2.770" (70.36mm) O.D. x .678" (17.22mm) Tall
- High performance phenolic
