

TORQUE CONVERTER PARTS

FD-CC-17L4

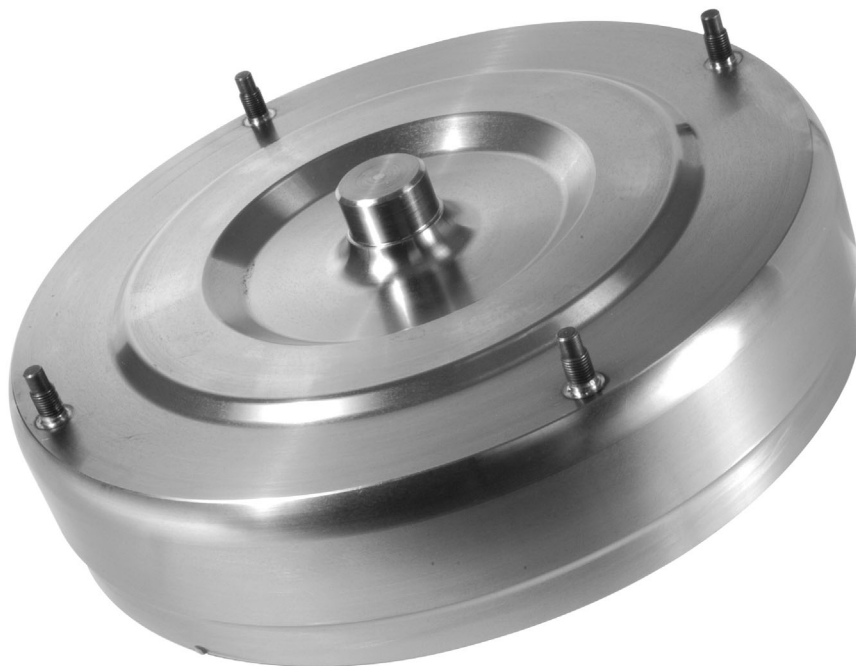

GROB FRONT COVER

Applications:

- Ford E4OD, 4R100

Details:

- High-quality AISI 1026 steel forging
- High-strength weld-on studs will not flex, pull out or screw out
- Thicker cross section between studs and lockup surface for a stronger cover
- Better support of the studs and better heat dissipation
- Low surface finish on the lockup surface for consistent lockup and long clutch life
- Center thrust area is ground and parallel for use of turbine hubs with bearings, fiber washers or bimetals
- Thrust face to lockup surface is the same as OEM for consistent rebuilding
- Longer lip makes it easier to reuse impeller covers

Part No.

FD-CC-17L4

Front Cover with Spline

4 Long Studs, Gas

Sold in prepackaged quantities of 1 unit

Please refer to our

2003 TORQUE CONVERTER PARTS CATALOG

FD-CC-17L4 is:

Item Number 25 of Reference Figure 2.18 on page 96.

Sonnax now offers **FD-CC-17L4**, a fully machined, 4-long-stud version of **FD-CC-17S**. This forged front cover, like **FD-CC-17S**, Sonnax's 6-short-stud version, has a deeper spline with 70% additional height engagement over OEMs for extra torque capacity and reduced wear.
