

Features & Benefits:

- OEM-approved replacement
- High-quality bearing

Part No.

77747-01

1 Captured Front Planetary Bearing

Note: The Sonnax bearing replaces the .199" thick silver and black colored bearing used from 1999 on Up. It will not work in 1983 - 1998 applications with .151" thick bearing.

PART SUMMARY

Sonnax now offers the latest version high quality replacement for the captured front planetary bearing, which is known to fail. This direct OEM replacement bearing can be used in 4L60-E units, '99-Up, and all 4L65-E applications.
