SURECURE

FROM

sonnax

Sonnax Sure Cure® Kits combine "the best" Sonnax products into one box, offering rebuilders a convenient and cost-effective way to address common transmission problems. These kits simplify ordering, stocking and estimating job costs, and include easy-to-read, step-by-step instructions that cover the inspection and repair of the most critical areas of the unit, and even a reference list of rebuilding specifications.

This AXODE transmission reconditioning kit includes the following Sonnax parts and addresses these problems:

Sonnax Part	The SureCure® for:
• Boost valve assembly (96201-01K)	2-1 downshift clunk, harsh reverse, poor line rise
• Bypass clutch control valve assembly (96206-01K)	Code 628, TCC apply/release problems, lube failures
• Forward control valve kit (96201-16K)	Slippage in or no forward and reverse
• 3-2 shift timing valve saver kit (96201-15K)	Neutral on 3-2 downshift, damaged valve and clip
• Rear ring gear retaining ring (96730-RR)	No movement caused by OEM ring popping out of groove
• Servo pin split-ring retainer (96945R)	OEM clip breakage. Highlight: Split ring designed retainer will not break
• Servo tube retaining bracket (96803)	No forward or 3rd gear by holding in loose servo tubes
• Valve body retainer clips (96201-10, 96201-11)	Broken or missing OEM retainers
• TV cable corrector kit (AS1-01K)	Throttle cable being pulled out of adjustment at wide open throttle
• Pump shaft lube plug (96855-04K)	Poor lube, dirty shafts
Recommended Tools:	
96201-BST	Bore sizing tool for forward control valve
