

TORQUE CONVERTER COMPONENTS

AL-CC-1

Front Cover

Applications:

- Allison 1000/2000/2400 series

Details:

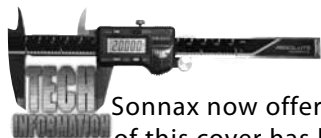

- Made from high-quality AISI 1026 steel forgings, fully machined
- Tapered lockup surface machined to OEM specifications
- Increased wall thickness for greater stiffness
- Longer lip makes it easier to reuse impeller
- Center thrust area is ground and parallel to accept turbine hubs with bearings, fibre washers or bi-metals
- One-piece design, no welds to flex, crack or leak

AL-CC-1

Front Cover

Prepackaged Quantity: 1 Unit

Sonnax now offers the Allison 1000/2000/2400 series lockup front cover **AL-CC-1**. The increased strength of this cover has been achieved by using a one-piece forging with increased thickness in critical areas. This part also incorporates a higher register to salvage shortened impeller covers.
