2003 TORQUE CONVERTER PARTS CATALOG

FD-O-16 is:

Item Number 13 of Reference Figure 2.14 on page 86.

Sonnax now offers torque converter rebuilders FD-O-16, a scarf cut version of the OEM piston seal for late Ford 9-1/4" CD4E torque converters. This converter is stamped "H" on the pilot and is used in Ford Escapes and Tributes. This piston seal is also used with **FD-HT-38HS** turbine hub in the Ford AX4N (4F50N) application.
