

Wiring Harness Connector Bracket

77980-01K

4L60-E

1 Wiring Harness Connector Bracket

34998-01K

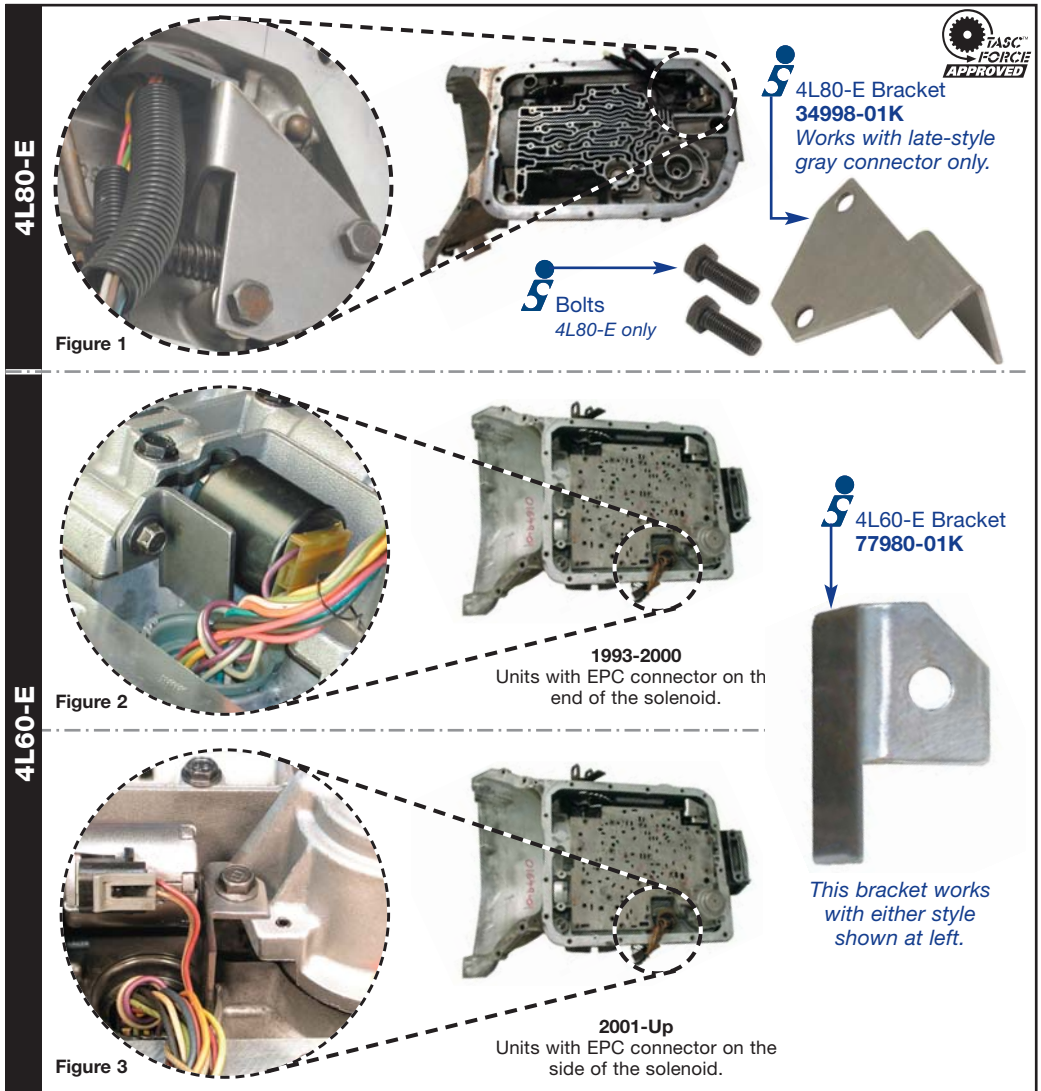

4L80-E

Late-style gray connector only

1 Wiring Harness Connector Bracket

2 Bolts

Note: The 4L80-E unit uses two different wiring harness connector styles. The "early" style has exposed terminals and a red rubber gasket. The "late" style has a gray plastic enclosure surrounding the terminals. The Sonnax 4L80-E bracket **34998-01K** works only with the late-style connector.

Instructions

Install the bracket as shown in the attached diagram.

1. Remove OEM bolt(s) as shown.

2. **4L80-E:** Install the bracket using the longer bolts supplied.

The bracket must be installed on top of the OEM parking lever plate as shown in Figure 1.

4L60-E: Install the bracket in the position noted below for the year of application.

- **1993-2000** position bracket as shown in Figure 2.
- **2001-Up** position bracket as shown in Figure 3.
