

## SLU Linear Solenoid

### Part No.

**52-0458**

SLU Solenoid, Black Connector

## SLS Linear Solenoid

### Part No.

**52-0464**

- SLS Solenoid, Green Connector
- Bracket

## SLT Linear Solenoid

### Part No.

**52-0466**

- SLT Solenoid, Blue Connector
- Bracket

## SLU, SLS & SLT Linear Solenoid Kit

### Part No.

**52-9036**

- SLU, SLS & SLT Solenoids (1 ea.)
- Bracket

## SLS & SLT Linear Solenoid Kit

### Part No.

**52-9037**

- SLS & SLT Solenoids (1 ea.)
- Bracket

## Aisin AW 55-50SN

Replace worn out or plugged linear solenoids with these OE-quality solenoids from Rostra. Unique features include a special, universal design which make the solenoids a fit for all Aisin AW 55-50SN valve bodies, plus a slotted housing that allows contaminants and debris to flow through the solenoid instead of becoming trapped, causing premature failure. Each unit is 100% calibrated, requiring minimum adjustment in the vehicle. The solenoids' spool valve and port receive special surface treatments to reduce friction and wear.

### Features & Benefits

- Universal design covers all AW 55-50SN models and years for maximum versatility
- Slotted solenoid housing prevents the build-up of contaminants and debris
- 100% calibrated and serialized at the time of manufacture

**NOTE:** SLU solenoids can be replaced individually using the OE bracket. It is strongly recommended that SLS and SLT solenoids be replaced at the same time, as a set, using the bracket included in each kit.
