

## TCC Control Valve and Sleeve Kit

### 41954-03K

1 TCC Control Valve  
1 TCC Control Sleeve  
1 O-Ring

**\*Note:** May be used in Mitsubishi F4A41/42/51, R4/V4A51, R5/V5A51, F5A51, A5HF1 & A5GF1; 1996 - Up. However, OEM valve spool diameters MUST be measured to verify application.

### Installation/Assembly Steps:

1. Remove and discard OEM sleeve and valve, after verifying spool sizes.
2. Keep OEM spring and retaining pin.
3. Insert OEM spring into replacement valve spring pocket.
4. Place o-ring into inboard sleeve groove, lube and roll on bench to size.
5. Push spring/valve assembly into bore, spring end first.
6. With retaining pin hole in sleeve properly oriented with casting pin hole, push sleeve into bore and over valve spool gently.
7. Insert OEM retaining pin thru casting and sleeve holes to secure.
