Aluminum Weld Yoke

T33-28-3512

Application:

- 1330 Series using 3-1/2" x .125" wall thickness driveshaft tubing

Details:

- Made from forged 6061-T6 aluminum for increased strength.
- Machined, tapered inner pilot enables accurate lathe set-up using Sonnax's patent pending centering tool.
- Extra-thick "weld wall" prevents costly weld blow-through.
- Integral centers provide for quick and accurate lathe and welding set-ups.
- Pilot can be easily machined for odd size tubing.

Part Number
