TORQUE CONVERTER PARTS CATALOG VOLUME 6 & ONLINE CATALOG AT WWW.SONNAX.COM

FS-90-10G is:

Not currently catalogued and should be added to Fichtel & Sachs hub identification Page 143.

Sonnax now offers a flanged mount replacement impeller hub **FS-90-10G** for the ZF6HP19 & ZF6HP26 torque converters. This hub is hardened for greater strength and durability and is specifically designed for use in bearing style pumps unlike most impeller hubs that pilot on a bushing. This hub gives the converter rebuilders another option when rebuilding Fichtel & Sachs torque converters.
