FEATURES & BENEFITS:

- **Solid and reliable band apply in drag racing applications**
- **Longer band life due to reduced slippage**
- **Improved and quicker gear changes**

Part No.

28314

1 Band

PART SUMMARY

Why install a relined band when you can buy a new band? The Sonnax Borg-Warner Powerglide "Race Only" Band **28314** represents a "no-holds-barred" approach to the design of a race-only band. Featuring the latest developments in friction materials and all new construction, this band will reliably hold where conventional relined bands often fail.

Note: The Powerglide "Race Only" Band 28314 is not intended for highway use. Band application upon transmission downshift with vehicle in motion is not recommended and can result in band failure.
