

Dipstick Tube Shield

92834-07

1 Dipstick Tube Shield

Instructions:

1. Remove the original dipstick tube from the case
2. Slide the Sonnax dipstick tube shield into the case. Use a suitable driver and tap the tube into the case until it seats on the step in the case bore, about 1.125" below the top of the opening (see photo at right).
3. Reinsert the original dipstick tube. Verify original tube is seated in case.
