

## Lockup Piston

### Part No.

**S6770845**

NOTE: Allison Part No. 6770845

### Series/Application

MT Series

## Allison® MT Series

The Allison MT Series piston **S6770845** offers OE quality at an aftermarket price. Careful machining after fabrication assures that the piston's seal ring groove, drive hole pattern and bore are precisely aligned, and that overall height is maintained.

### Features & Benefits

- Machining after fabrication for precise overall height and consistent seal groove depth
- Drive hole pattern precisely centered and spaced provides equal loading on all drive pins for longer life and greater wear resistance
- Diaphragm spring matches OE thickness
- Made in USA
