### Catalog Reference

Item number 23 for the Aisin Seiki 450-43LE on page 264 in the Sonnax Torque Converter Vol. 6 catalog. See also our online catalog.

## Aisin Seiki 450-43LE

The Aisin Seiki 450-43LE front cover **TO-CC-1** cover is a fully machined one-piece forging. The four flex-plate mounting pads are integrated into the cover forging, not welded on, and the wall thickness in critical areas has been increased. Both of these features combine to increase the strength and durability of this cover.

### Features & Benefits

- Made from a fully machined high quality SAE 1026 steel forging
- One-piece design with integrated flex-plate mounting pads
- No welds to flex, crack, or leak
