

Lockup Piston

Part No.

S6770845

NOTE: Allison Part No. 6770845

Series/Application

MT Series

Allison® MT Series

The Allison MT Series piston **S6770845** offers OEM quality at an aftermarket price. Careful machining after fabrication assures that the piston's seal ring groove, drive hole pattern and bore are precisely aligned, and that overall height is maintained.

Features & Benefits

- Machining after fabrication for precise overall height and consistent seal groove depth
- Drive hole pattern precisely centered and spaced provides equal loading on all drive pins for longer wear
- Diaphragm spring matches OEM thickness
- Made in USA
