

Pump Bushing

Part No.

77005T

4L60, 4L60-E, 5L40-E

This pump bushing is a direct replacement part for 4L60 and 4L60-E units and an upgraded part for 5L40-E units. The bushing is Teflon[®]-coated like the OE to improve cold start-up by retaining oil and reducing friction on start-up.

Features & Benefits

- Direct replacement for 4L60 and 4L60-E
- Upgraded replacement for 5L40-E
- Teflon[®]-coated to promote oil film retention and improve cold start-up
