

Features & Benefits:

- Rubber seal prevents leakage
- Direct OEM replacement

Part No.

76832A

1 Servo piston assembly

PART SUMMARY

Sonnax **76832A** overdrive servo piston and rod assembly is a direct OEM replacement. The bonded rubber piston seals will prevent leakage between the piston O.D. and the case bore. Applications in which this piston and rod assembly is used are the AOD-E and 4R70W transmissions.
