

35922-01K

SPEEDO PLUG

H I G H P E R F O R M A N C E T R A N S M I S S I O N P A R T S

FEATURES & BENEFITS:

- **Lubes the output shaft bushing**
- **Cleaner and neater than a freeze plug**

Part No.

35922-01K

1 Plug

2 O-Rings

PART SUMMARY

During high performance rebuilds, the speedometer gear is often removed and replaced by a freeze plug. However, in addition to being used for driving the speedometer, the gear is also critical to lubricating the rear output shaft bushing. This new speedo plug supports the speedometer gear and allows lube to flow as the original design intended. The gear shaft has to be cut to 1.320" long. See illustration below.
