

GM-CC-6

GM Racekit Front Cover

- Made from AISI 1026 forging
- Single 10" bolt pattern version for applications using small flexplate

Please Refer To Our

2000 Torque Converter Parts Catalog

GM-CC-6

- This is optional item number 17, 17 & 16 of figure 13.00, 13.01 & 13.02 on page 232, 234 & 236 of the 2000 Sonnax Torque Converter Catalog.

GM-CC-6 can be used in all of the GM non lock-up racekits without having to modify the mounting pads for clearance with smaller diameter flexplates. This front cover can be used in 8" and 10" racekits for Powerglide, THM 350 & THM 400.
