

# 28304-SP

## FORWARD CLUTCH HUB

H I G H   P E R F O R M A N C E   T R A N S M I S S I O N   P A R T S

### FEATURES & BENEFITS:

- **Accepts five friction discs for increased load capacity**
- **Machined from high strength steel forging**
- **Precision machined splines and thrust surfaces**
- **Strong construction**
- **Lube hole pattern for reduced drag on friction discs in low gear**

### Part No.

**28304-SP**

*Forward Clutch Hub*

### PART SUMMARY

The Sonnax Powerglide Direct Clutch Hub **28304-SP** is an extra strength alternative for **28304**. This hub is built to give extra strength in drag racing Powerglides where weight is not a consideration. Machined from a high quality medium carbon steel forging, this Direct Clutch Hub accepts five friction discs for the added load capacity needed in high horsepower race cars. All splines and thrust surfaces are precision machined to exacting tolerances.
