- Mitsubishi F4A42
- Impeller and turbine sides of stator

Details:

- Partially enclosed
- 61.88mm (2.436") x 38.00mm (1.496") x 3.81mm (.150")

Associated Parts:

- **TO-N-5** Bearing race (all applications except A440F)

TO-N-13

Bearing

Prepackaged Quantity: 25 Units

Sonnax now offers **TO-N-13**, a direct OEM replacement bearing for both the impeller and turbine sides of the stator in all applications stated except A44D, which has no bearing on the turbine side. Sonnax previously offered the cupped bearing race **TO-N-1** and the open bearing **MI-N-3** to replace the OEM bearing. **TO-N-1** is no longer available and will now be replaced by the partially enclosed OEM needle bearing **TO-N-13**.
