

## TORQUE CONVERTER PARTS

# FD-HT-41HS

## TURBINE HUB

### Applications:

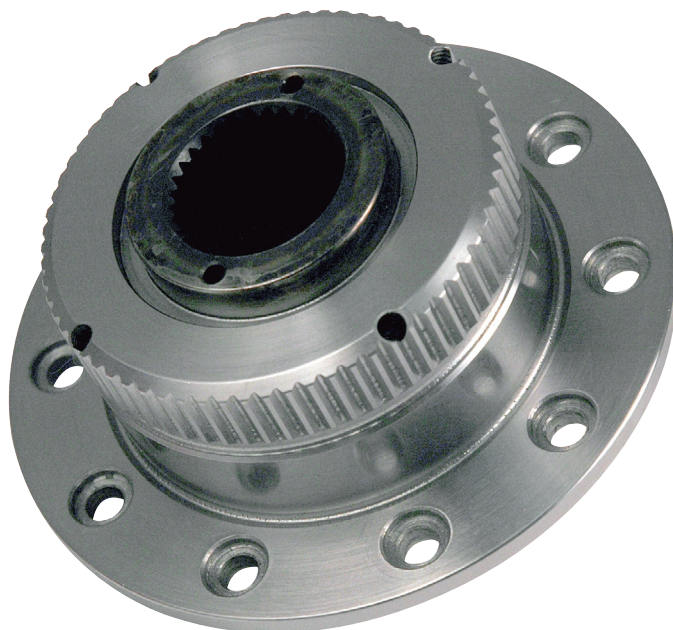

- Ford 5R110W

### Details:

- 31-tooth internal spline, 68-tooth external spline
- Made from AISI 1045 steel forging with induction heat-treated internal splines for long life

### Associated Parts:

- FD-RV-3, Rivets
- FD-WS-11, Reinforcement Ring
- FD-TA-1, Turbine Assembly
- FD-WP-17, Vespel® Thrust Washer
- FD-N-6, Thrust Bearing
- FD-DA-13, 3-Friction Piston/Damper Assembly

### Part No.

## FD-HT-41HS

*Turbine Hub*

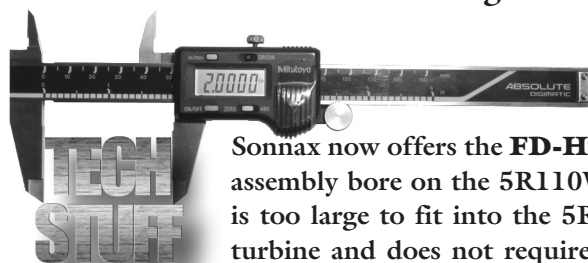

**Sold in prepackaged quantities of 1 unit**

Please refer to our

**TORQUE CONVERTER PARTS CATALOG VOLUME 6**

**FD-HT-41HS** is:

Item Number 17 of Reference Figure 2.01 on page 58.

Sonnax now offers the **FD-HT-41HS** turbine hub for the 5R110W torque converter. The turbine assembly bore on the 5R110W is .013" smaller than the 4R100, so the 4R100 turbine hub pilot is too large to fit into the 5R110W turbine. The **FD-HT-41HS** fits properly into the 5R110W turbine and does not require any machining. This turbine hub comes with heat-treated splines, giving rebuilders a long-lasting solution when rebuilding 5R110W converters.
