Catalog Reference

Item Numbers 14-16 for Mercedes 722.6 on page 222 in the Sonnax Torque Converter Vol. 6 catalog. See also our online catalog.

Mercedes 722.6

These kits are direct replacements for the Mercedes torque converter clutch pack for the 272mm and 290mm units.

Sonnax offers the **MB-CP-272K** master clutch plate kit and individual replacement components **MB-CP-7K** (replaces **MB-CP-1KR**), **MB-CP-3KR** and **MB-CP-4K** for the popular 272mm units and **MB-CP-290K** master kit and individual replacement components **MB-CP-9K** (replaces **MB-CP-5KR**), **MB-CP-3KR** and **MB-CP-6R** for the 290mm units.

Friction plates **MB-CP-7K** and **MB-CP-9K** as well as seals **MB-O-4V** and **MB-O-5V** are all newly designed parts to maximize hydraulic integrity.

Features & Benefits

- Newly designed friction plates by Raybestos®
- Thin and thick steels
- 272mm and 290mm components or kits
