- 23-tooth input spline
- 62-tooth clutch spline
- Made from a 300M steel forging
- Use with OEM seals

Part No.

22121B-01

Input Shaft

PART SUMMARY

Sonnax now offers this heavy-duty, one-piece input shaft/forward clutch hub for the Chrysler A618, 47RH/RE and 48RE applications. By combining the input shaft and forward clutch hub into a one-piece design, Sonnax has eliminated the weak connection between the two. This new assembly is made from a high-strength, one-piece 300M steel forging, which adds to the overall strength of the design.
