

Allison® 1000, 2000, 2400

Sprag

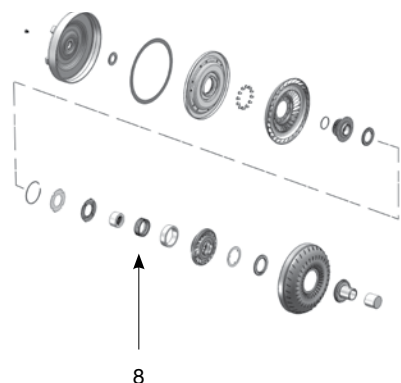

Part No. **AL-SP-1**

Application

- Allison® 1000, 2000, 2400, Early & Late (2006-Up) Style Units

Illustration Reference

AL-SP-1 is item number 8 below for late styles and 9 for early styles. For early and late style detailed illustrations, visit www.sonnax.com.

The **AL-SP-1** features a double-cage design for more positive engagement and increased strength when holding. This part replaces the Later, 36-element sprag, which is prone to failure with the one-cage design. The **AL-SP-1** replaces both Allison® 1000, 2000, 2400 early and late (2006-up) style units.

Features & Benefits

- 29-Element, double-cage design
- More positive engagement
- Increased strength
